state captures

Scope

- Desktop, tablet, and mobile screenshots for every mapped public/admin route.
- Interaction states for catalog menu, mobile nav, product modal, tabs, filters, form validation, admin calendar, popovers, publish modal, AI and media states.
- Tokens, component inventory, screen map, responsive frame map, and Figma-ready frames JSON.
- No true .fig file was generated; this is a structured Figma-import-friendly package.
